

```
[kianz001@empresn cs111] $ ./cs/slott/cs111/squareRoot
What is your user id (e.g. smith001)? -->kianz001
What is your programmer number? -->30

---- You are -----
30 Ryan

Is the information correct? Type y or n then hit Enter -->y

*****
Uploading your squareRoot.cpp was successful.
*****
Uploading your input.h was successful.
*****
Your program successfully compiled
*****
Your outputs are correct.
*****

---- You are -----
30 Ryan

----- Here are the outputs using your program -----
----- Compare your outputs to the expected outputs found in /cs/slott/cs111/squareRoot.out -----
Enter a positive integer number that you want to find the square root for: Enter a positive integer number between 1 and 90000000: Enter a positive integer number between 1 and 90000000: Start at 3
The square root of 10 is 3.16228
The square of the square root is 10
```
