

What is your user id (e.g. Smith001)? ==>kianz001

What is your programmer number? ==>30

---- you are -----

30 Ryan

Is the information correct? Type y or n then hit Enter ==>y

Uploading your fibonacci.cpp was successful.

Your program successfully compiled

Your outputs are correct with these test cases. We will use different test cases when we grade your program.

---- You are -----

30 Ryan

===== Here are the outputs using your program =====

===== Compare your outputs to the expected outputs found in /cs/slott/cs111/fibonacci.out =====

Enter the number of fibonacci numbers you want to see (N >= 3): Enter the number of fibonacci numbers you want to see (N >= 3):
:

0 1 1 2 3 5 8 13 21 34 55 89 144 233 377
