```
[kianz001@empress cs111]$ /cs/slott/cs111/temperature
What is your user id (e.g. smith001)? ==>kianz001
What is your programmer number? ==>30

---- you are  --------
30 Ryan

Is the information correct? Type y or n then hit Enter ==>y

***********************************************************************************************
Uploading your temperature.cpp was successful.
***********************************************************************************************

***********************************************************************************************
Your program successfully compiled
***********************************************************************************************

***********************************************************************************************
Your outputs are correct with these test cases. We will use different test cases when we grade your program.
***********************************************************************************************

---- You are  --------
30 Ryan
================ Here are the outputs using your program ==============
================ Compare your outputs to the expected outputs found in /cs/slott/cs111/temperature.out ==============
Enter a temperature in Celsius:
3 C = 37 F

[kianz001@empress cs111]$
```
